General Comments

This report shall not be reproduced except in full, without prior written approval from the laboratory. The laboratory is not responsible for the sample data supplied by the customer and their impact on the validity of the result.

The laboratory declares that the test results relate only to the listed samples. If "ALS" is not included in the test report in the "Sampled by" section, then the results refer to the sample as received.

Amendment No.3 - comments correction. This Amendment No.3 replaces the original report Amendment No.2 issued on 16.6.2025.

The sample FP2516834/001, method B-VB26LC02 - the concentration of vitamin B6 (pyridoxine hydrochloride) in the sample is 1.23 mg/capsule.

The sample FP2516834/001, the method B-METAXDG1, the concentration of Mg in the sample is 75,2 mg/tbl. The weight of the tablet of the sample is 0,6539 g.

The symbol "*" for the method indicates a test outside the scope of accreditation of the laboratory or subcontractor. If the UNICO-SUB code is stated in the method table, this only informs that the tests have been performed by a subcontractor and the results are given in an annex to the test report, including information on test accreditation. If the lab used for matrix outside the scope of accreditation or non-standard sample matrix procedure specified in the accredited method and issues non-accredited results, this fact is stated on the title page of this protocol in the section "Notes". If the test report shows the results of subcontracting, the place of performance of the test is outside the laboratories of ALS Czech Republic, s.r.o.

The method for calculating of the summation parameters is available on request in the customer service.
